INTRODUCTION

This report presents a wide range of socio-economic information on the 57 Manitoba provincial electoral constituencies (1988 representation order). The data presented in the report was provided by Manitobans during the 1986 Census.

The Manitoba Bureau of Statistics developed the special geographic referencing (geo-coding) required to produce these provincial electoral constituency profiles.

The constituency population totals match Elections Manitoba estimates except:

1) The Census data does not include population estimates for the 16 Indian Reserves not enumerated in the 1986 Census. Elections Manitoba figures include an estimate of 8,216 persons on these Indian Reserves, spread over 8 of the 57 constituencies.

2) The MBS produced profiles are based on the aggregation of block-face (i.e. side of a city block) data within Winnipeg and enumeration area level data for the remainder of Manitoba. Where constituency boundaries do not respect this geography (the constituency boundaries split an enumeration area into 2 or more parts) and Elections Manitoba has manually split the area, then the population figures may not match.

This report consists of 7 tables of characteristics for each of the provincial electoral constituencies. The constituencies are presented alphabetically, six to a page. All 7 tables of characteristics are presented for each set of six constituencies before going on the the next set. The Manitoba level characteristics are presented with the last set of provincial electoral constituencies.

Detailed profiles for each of the 57 provincial electoral constituencies are available from MBS at $15. per constituency, with a discount for a volume purchase. One copy of each of the 57 constituencies is priced at $285. These detailed individual constituency profiles provide a full range of information available from the 1986 Census as well as providing a comparison to Manitoba level data. Population estimates for the new constituencies are also provided from the 1981 Census.

The data presented in the 57 individual provincial electoral constituency (1988 representation order) statistical profiles may be purchased from MBS in a micro-computer readable form for $495.

For further information on the statistical profiles or to order any of these data products, please contact Wilf Falk at 945-2988.

DEFINITIONS

i) CENSUS FAMILY - Refers to a husband and wife (including common-law), or a lone parent (of any marital status) and their single (never married) children, living in the same dwelling.

ii) ETHNIC ORIGIN - Refers to the ethnic or cultural group(s) the individual belongs to based on ancestral origin, not citizenship or nationality.

iii) HOME LANGUAGE - Refers to the language most often spoken at home by the individual.

iv) INSTITUTIONAL RESIDENT - Refers to a resident of an institutional collective dwelling, other than the staff and their families.

v) MARITAL STATUS

SINGLE - Persons who have never been married, or whose marriages have been annulled. Includes all persons less than 15 years of age.

MARRIED - Persons whose husband or wife are living, unless a divorce has been obtained. Persons separated from their spouse, and persons living common-law are considered married.

WIDOWED - Persons who have lost their spouse through death and have not remarried.

DIVORCED - Persons who have obtained a legal divorce and have not remarried.

vi) MOTHER TONGUE - The first language learned in childhood, and still understood by the individual at census time.

vii) OCCUPIED PRIVATE DWELLING - Refers to a separate set of living quarters that has a private entrance (can be used without passing through someone else's living quarters), and in which at least one person is permanently residing on census day.

viii) PRIVATE HOUSEHOLD - Refers to a person or persons (not foreign residents) who occupy a private dwelling, and do not have a usual residence elsewhere in Canada.

ix) VALUE OF DWELLING - Refers to the dollar value expected by the owner if the dwelling were to be sold.

FOOTNOTES

(1) For historical and statutory reasons, shelter occupancy on reserves does not lend itself to the usual classification by standard tenure categories. Therefore, the special category "On reserve" has been created for 1986 Census products, to apply to all occupied private dwellings on reserves.

(2) Includes semi-detached houses, row-houses, other single attached houses, apartments or flats in a detached duplex and apartments in a building that has less than five storeys.

(3) Average number of children per census family is calculated using the total number of children at home and the total number of census families.

(4) All subsequent characteristics data exclude institutional residents.

(5) Includes the single origins of English, Irish, Scottish, Welsh and Other British.

(6) Includes the single origins of French, Acadian, French Canadian and Quebecois.

(7) Includes persons who report more than one origin.

(8) For owner-occupied, private non-farm non-reserve dwellings only.

(9) Includes steam or hot water furnace or boiler, forced hot air furnace, and installed electric heating system.

(10) Includes piped gas (e.g., natural gas) and bottled gas (e.g., propane).

(11) Includes electricity as the only energy source for heating the home, and electricity as the main source where more than one fuel/energy is used.

(12) Includes kerosene.

(13) Includes wood, coal or coke, and other forms of fuel/energy.

(14) Includes "No schooling or kindergarten only".

(15) "Non-university" refers to non-university courses requiring secondary school graduation, and courses taken in other institutions such as trade schools or vocational centres which may not require secondary school graduation.

(16) Includes "Non-university certificate or diploma" and "Trades certificate or diploma".

(17) Includes persons with both university and non-university education, as well as persons with university only.

(18) "Not applicable" refers to unemployed persons, 15 years and over, who have never worked or who had only worked prior to January 1, 1985. For this "Inexperienced labour force" the industry, occupation and class of worker questions did not apply.

(19) Occupation major group and industry division totals include computer assignment of the "Not stated", based on selected socio-economic characteristics.

(20) These totals may be referred to as the "Experienced labour force".

(21) Worked 49-52 weeks in 1985, mostly full time.

(22) Worked 49-52 weeks in 1985, mostly part time, or worked less than 49 weeks.

(23) "Incidence of low income" is the percentage of units (families, individuals, households) below Statistics Canada's low income cut-offs, which are determined separately for units of different sizes living in areas with different degrees of urbanization.

(24) Includes loss.
